

# Taking your ideas to the next stage

**MOULDS PLUS**<sup>™</sup>  
INTERNATIONAL

## Moulds Plus International - your full service partner

Moulds Plus International is the first choice when it comes to providing end-to-end solutions that improve customer competitiveness. We will guide you through the process with the goal of refining your product without compromising on quality. The combination of our experience, engineering skills, design knowledge and continuous research for new solutions, make Moulds Plus International an innovative partner with the skillset to design and manufacture complex products. Our expertise allows us to assist customers in the selection of raw materials, whether it be metal, plastic or other solutions that would be more suitable to take your project to market. Our customer's success is our success.

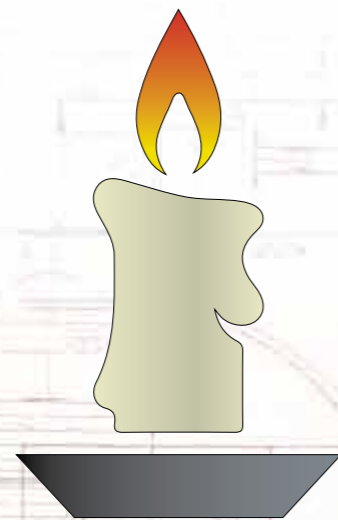

## What do we offer?

We are dedicated in assisting our customers during the entire product cycle to achieve market success. The design phase includes intuitive usability, functionality and appealing aesthetics. With our technical understanding, broad engineering and manufacturing knowledge and know-how, we provide ongoing technical expertise and ensure a seamless transition to manufacturing and industrialization.
